The following Order issued by the Government of India, in the Home Department, is re-published for general information :—

No. 3753.—The following Notification published by the Government of Bombay, regarding the Lighthouse at Rutnagherry, is re-published for general information :—

The following Notice, descriptive of the Light, Position, &c., of the Lighthouse at Rutnagherry, is published for general information. To admit of ample notice being given before the Light is brought into use, it will not be lighted before the 1st January 1867 :—

1.—The Lighthouse at Rutnagherry is a short column raised in the South Bastion of an old Fort built in a very bluff headland rising 300 feet above the Sea. The Light, on the Dioptric principle of the 3rd Order and Red in color, will be visible from a vessel's deck, in clear weather at a distance of at least 18 miles.

2.—The Lighthouse is in Latitude 16° 59' 0" North, and Longitude 73° 15' 47" East of Greenwich, or 0° 27' 39" East of Bombay Lighthouse.

3.—There are three anchoring grounds,—the outer-anchorage for sailing vessels, the outer-anchorage for steamers, and the inner-anchorage for steamers during the fair season only.

4.—Vessels anchoring at the outer-roadstead should do so in 8 fathoms of water at a distance of a little over a mile from the Lighthouse, and with the following bearings :—

Lighthouse, N. 59° 04' E., or N. E. by E.  $\frac{1}{2}$  E.

Adawlut Building,\* N. 81° 33' E., or E.  $\frac{1}{2}$  N.

White Tomb near the beach to the South of the Creek, N. 104° 04' E. E. by S.  $\frac{1}{2}$  S.

5.—Steam vessels making the port at the beginning or close of the South-West Monsoon should anchor in 6 $\frac{1}{2}$  fathoms with the Lighthouse bearing due North, and the Adawlut Building bearing E. N. E.

\* A very large house on the Hill bordering the Creek to the North.

6.—The inner-anchorage is only available for steamers during the fair season: vessels should anchor in not less than 4 fathoms with the Lighthouse bearing N. W.  $\frac{1}{2}$  N., and the Adawlut E. by N.  $\frac{1}{2}$  N.; that position will place them at a distance of about 1,200 yards from the landing place, and 700 yards from the edge of a ridge of rocks running out from the beach in front of the Custom House.

7.—The Port of Rutnagherry does not afford the least shelter for vessels during the South-West Monsoon; but a vessel in distress would in a measure be sheltered by anchoring in 5 fathoms after rounding the North Point of Meria Donghur—a Hill 3 miles to the North of the Lighthouse.

8.—The Bay between Meria Donghur and the Lighthouse Hill does not afford any shelter, but on the contrary is open to the full force of the monsoon.

HYDROGRAPHICAL DEPARTMENT.

Sea of Mindoro.

Eastern Coast of the Island of Balabac.

Lighthouse of the Port of Prince Alfonso in the Bay of Calandoray.

The following information is published in amplification of the Notice No. 23 of 26th April 1865:—

At the southern point of the Port of Prince Alfonso in  $8^{\circ} 1' 0''$  N. latitude, and  $123^{\circ} 13' 30''$  E. longitude, on the Hill called Admiral Gil, there is a white Tower with a red base, which is situated to the East of a white house with a red roof, which serves as a dwelling for the keepers. The said Tower carries an hexagonal lantern with a helmet-shaped top, painted red as well as the lantern. This contains a catadioptrical apparatus of the Fifth Order 81m. 732 above the level of the Sea: there burns a white fixed light, which, in the ordinary state of the atmosphere, reaches to a distance of ten miles.

The said light bears S.  $50^{\circ}$  W. from the midway of the Channel formed by the Islands of Candareman and Nasobata; N.  $22^{\circ}$  W. from the midway of the Channel formed by the Islands Nasobata and Cameron; N.  $69^{\circ}$  W. from the midway of the Channel formed by the Islands Cameron and Loombocan; and N.  $33^{\circ}$  W. from the midway of the Channel formed by the Island Loombocan, and the S. E. Coast of Balabac.

The arc of illumination comprises an extent of  $140^{\circ}$  from the Strait or Channel North of Balabac to the farthest visible point of the Southern Coast of this Island, and passes at 4 miles S. E. of Nasobata, at 1 mile E. of Cameron, and at 3 miles N. W. of Loombocan.

Vessels coming from W. by the Channel North of the Island, called the Good Channel, on coming out of it will descrie the lighthouse to the S.  $30^{\circ}$  W. at a distance of 7 miles. Those which come from the N. E. will cut the arc of illumination in so far as they have the Island of Bijan bearing North, that of Candamarian West, and that of Nasobata S.  $40^{\circ}$  W., this last at 5 miles distance.

To those which stand in by the E. (which is not prudent on account of the bank which there is between Nasobata

and Cameron) on entering the arc of illumination, Nasobata ought to bear N.  $60^{\circ}$  W. and Cameron S.  $25^{\circ}$  W., this last at a distance of 4 miles.

Those which come by S. E. guided by buoys on the N. part of the Island Loombocan will enter the arc of illumination as they have the Island of Cameron bearing N.  $22^{\circ}$  E., and that of Loombocan S.  $20^{\circ}$  E., both at the distance of 3 miles.

Those who stand in by the S. will find themselves within the illuminated sector when they are 5 miles W. of Loombocan, and go coasting along the Island of Balabac at a distance of 2 to 3 miles.

The bearings are correct.

HYDROGRAPHICAL DEPARTMENT.

China Sea.

Western Coast of the Island of Luzon.

Masinglor Shoal.

It appears from a Despatch sent by the Commander of the corvette *Narvaez*, to the Commander-in-Chief of the Station at the Philippines, dated 8th September 1865, that having left Manila on the 5th of the same month for the Masinglor or Scarborough Shoal, for the purpose of saving the English bark *Eliza Boncher*, which was said to be aground thereon, he came in sight of the Shoal at 9 in the morning of the 7th, and approached it within a short distance, although the said bark did not appear. He was thus enabled to note a summit or head of rock about 2 metres high, against which the sea broke from the S. W., and to distinguish on the N. E. point of the Shoal other smaller ones, also of rock or coral, from two to three feet out of water.

At mid-day the chart was pricked at  $15^{\circ} 11'$  N. latitude, and  $123^{\circ} 54' 4''$  longitude E. of San Fernando ( $117^{\circ} 41' 48''$  E. of Greenwich) by the meridian altitude, and the chronometers and the shoal bearing to the W. at 3 miles distance, from which it is to be inferred that its eastern part or edge is in the English charts 14 miles further E. than the position given by the chronometers regulated at Manila before and after the expedition.

It is known from the same Despatch that the mate and some of the crew of the lost bark went on board the *Narvaez*, and that the charts referred to are English; but as the author of them is not mentioned, it is not possible to say whether they are from the Admiralty, or by some private person.

With respect to the charts of this Department, the difference which appears in the situation of the Shoal is almost identical, and to express it with greater clearness the great rock comes near about  $123^{\circ} 51'$  E. longitude, according to the abovementioned chronometrical observations.

HYDROGRAPHICAL DEPARTMENT.

Indian Ocean.

Reef of the Nina.

Lieutenant D. Coriaco Pateroy Martinez, Commander of the hooker *Nina*, has sent a Despatch, dated 4th January 1866, to the Commander-in-Chief of the Philippines, from which the following is an extract:—

"On the 28th September 1865, at 7-40 in the morning, when sailing E. S. E. with a fresh wind from S.  $\frac{1}{2}$  S. W. and sea tending from S. W., breakers were descried ahead on the larboard tack, for which reason I gave orders, after observing them well, to bear away to avoid them, and made course to N. E.  $\frac{1}{2}$  E. At 8 hours 30 minutes circumstances being favorable for the determination of the horary, various altitudes of the sun were taken with confidence. At that time the said breakers bore N.  $60^{\circ}$  E. and at an estimated distance of 7 miles, they could be quite clearly distinguished from the cross of the main-yard, and appeared to be caused by a reef of rock about 2 miles in extent from N. to S., which is not marked on the charts."

"At 9 hours 45 minutes the said danger was out of sight, and I went on my track hauling on the starboard tack; but at mid-day, with the altitudes of the sun,

"observed at 6 hours 30 minutes in the morning, and the meridional which was also to be depended on, I placed it in 35° 41' 0" S. latitude, and 45° 42' 37" E. longitude."

As the *Nind* did not take soundings, nor does it appear that she observed the breakers at a short distance, and on the other hand the charts show different Shoals, doubtful, or of uncertain position, in those places, this Department confines itself for the present to warning Mariners to be on the alert when they cruise in the waters of the locality which the Commander of the hooker assigns to the supposed reef.

ST. HELENA,  
The 18th April 1866. }

The following Order issued by the Government of India, in the Home Department, is re-published for general information:—

No. 3753.—The following Notification published by the Government of Bombay, regarding the Lighthouse at Rutnagherry, is re-published for general information:—

The following Notice, descriptive of the Light, Position, &c., of the Lighthouse at Rutnagherry, is published for general information. To admit of ample notice being given before the Light is brought into use, it will not be lighted before the 1st January 1867:—

1.—The Lighthouse at Rutnagherry is a short column raised in the South Bastion of an old Fort built in a very bluff headland rising 300 feet above the Sea. The Light, on the Dioptric principle of the 3rd Order and Red in color, will be visible from a vessel's deck, in clear weather at a distance of at least 18 miles.

2.—The Lighthouse is in Latitude 16° 59' 0" North, and Longitude 73° 15' 47" East of Greenwich, or 0° 27' 39" East of Bombay Lighthouse.

3.—There are three anchoring grounds,—the outer-anchorage for sailing vessels, the outer-anchorage for steamers, and the inner-anchorage for steamers during the fair season only.

4.—Vessels anchoring at the outer-roadstead should do so in 8 fathoms of water at a distance of a little over a mile from the Lighthouse, and with the following bearings:—

Lighthouse, N. 59° 01' E., or N. E. by E.  $\frac{1}{4}$  E.

Adawlut Building,\* N. 81° 33' E., or E.  $\frac{1}{4}$  N.

White Tomb near the beach to the South of the Creek, N. 104° 04' E. E. by S.  $\frac{1}{4}$  S.

5.—Steam vessels making the port at the beginning or close of the South-West Monsoon should anchor in 6 $\frac{1}{2}$  fathoms with the Lighthouse bearing due North, and the Adawlut Building bearing E. N. E.

6.—The inner-anchorage is only available for steamers during the fair season: vessels should anchor in not less than 4 fathoms with the Lighthouse bearing N. W.  $\frac{1}{4}$  N., and the Adawlut E. by N.  $\frac{1}{4}$  N.; that position will place them at a distance of about 1,200 yards from the landing place, and 700 yards from the edge of a ridge of rocks running out from the beach in front of the Custom House.

7.—The Port of Rutnagherry does not afford the least shelter for vessels during the South-West Monsoon; but a vessel in distress would in a measure be sheltered by anchoring in 5 fathoms after rounding the North Point of Meria Donghur—a Hill 3 miles to the North of the Lighthouse.

8.—The Bay between Meria Donghur and the Lighthouse Hill does not afford any shelter, but on the contrary is open to the full force of the monsoon.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals' Act* and of these Rules, be determined by the following measurements :—

(a.) The product of half the length of the vessel, from stern to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll should be levied.

(b.) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of feet, rejecting portions of less than a quarter of a foot.

(c.) In calculating the amount of toll to be levied, any fraction of 100 maunds, less than fifty maunds, is to be omitted; and a fraction exceeding fifty maunds is to be charged as fifty maunds only.

3. No raft will be admitted into any of the channels in excess of fifty feet in length or five feet in breadth. No timber, bamboos, or grass will be admitted, except securely and compactly packed in the form of a raft.

4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel, and the amount of toll paid.

5. No vessels whatever, except such as are employed on works connected with the maintenance or improvement of the lines of channels in question, shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through any one of the channels, the days of entering and leaving being both included; and any vessel or raft remaining in any part of the channels longer than the period above fixed, shall for each day in excess of such period be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in any one of the channels more than one month, without authority from the Supervisor, shall be subject to be summarily removed.

7. Any person infringing any of the above Rules, or wilfully interfering in their enforcement, shall be liable, under Section XI. of the *Canals' Act*, to a fine not exceeding 50 Rupees for any one offence.

6. Every bill, for any sum due on account of the rate or taxes leviable under the Act, shall, if possible, be presented to the individual named therein in person; but if such personal presentation be found impossible, a duplicate bill shall be affixed to his usual place of abode, and such bill so affixed shall be deemed to have been presented as required by Section 44.

Any person so dismissed shall be liable, at the discretion of the Chairman, to forfeit all pay and allowances due to him, not exceeding the pay and allowances for one month.

16. The Chairman or Vice-Chairman may originate, receive, or enquire into a complaint of misconduct or neglect in the performance of duty against any person employed by the Commissioner.

HIS HONOR the Lieutenant-Governor of Bengal, in accordance with the provisions of Section 88, Act III. (B. C.) of 1864, having directed the publication of the following Bye-laws for the Suburbs of Calcutta, in supersession of the existing ones, in the *Calcutta* and *Bengalli Gazettes*, they are hereby published for general information:—

*For regulating the time and mode of collecting the Rate and Taxes.*

1. Each quarterly instalment of the rate and taxes mentioned in the Act shall be considered to have become due at the commencement of the quarter on account of which such instalment is payable, and may be levied at any time after the commencement of such quarter, that is to say:—

The instalment payable on account of the quarter ending.	31st July. " Oct. " Jan. 30th April.	May be levied on and after	1st May. " Aug. " Nov. " Feb.
--	---	----------------------------	--

2. From the lists prepared under the provisions of Sections 29 and 39 of the Act, the collecting officer shall prepare the bills prescribed by Section 44. The bills so prepared shall be issued under the signature of the Commissioners or Officers appointed by them, or their Secretary; if there be one, to the subordinate officers on the collecting establishment, and shall be by them presented to the persons named therein, in the manner hereinafter described.

3. Every collecting officer shall be provided with a certificate of his authority to collect; and every such certificate shall bear the seal of the Municipality and the signature of the Chairman or Vice-Chairman. Every collecting officer at the time of demanding payment shall be bound to shew this certificate if required.

4. The collecting officer, taking the money in payment of any demand, shall give the receipt for it.

5. When the name of any owner is not known, it shall be sufficient to designate him in any notice, bill, or other proceeding under the Act, as the owner of the property on which the rate is assessed, without further description.

6. Every bill, for any sum due on account of the rate or taxes leviable under the Act, shall, if possible, be presented to the individual named therein in person; but if such personal presentation be found impossible, the bill shall be left at his usual place of abode, and such delivery shall be deemed to be the presentation required by Section 44.

7. The officer to whom a bill may be issued for presentation, shall receive the amount of such bill at the time of presentation, or at any time within ten days from the date on which the bill shall have been first presented by him.

8. Every person required, in writing, to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition in the manner described in Section 81 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rupees 5 for the omission, and to a penalty not exceeding Rupees 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return

shall be liable to a penalty of Rupees 5, provided that nothing in this Bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

9. Every owner, occupier, or other person shall permit the Commissioners, or any one appointed by them, under a written authority for that purpose, at any time between sun-rise and sun-set, to enter and inspect any coach-house or stable in which there is reason to believe that there is any vehicle or animal liable to taxation under Section 35 of the Act. Any person obstructing the Commissioners, or any person duly authorized by them in making such entry and inspection, shall be liable to a fine not exceeding Rupees 20.

10. Every distraint made under the Act shall be executed by the collecting officer, unless the Commissioners may otherwise direct, and the property distrained shall, pending sale or recovery from the defaulter of the amount due, remain in charge of the collecting officer, who shall deliver a list in the Form C., prescribed in the Act, of the property distrained.

11. Immediately on distraint the distraining officer shall post upon the house of the defaulter a notice of sale, fixing a day for the sale, not less than seven days from the date of distraint; and on the day of sale notice shall be given by beat of drum.

12. Payment of purchase money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall, in such case, be responsible to the Commissioners for any loss which shall be recoverable as a debt due to them.

14. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners, shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

Any person so dismissed shall be liable, at the discretion of the Chairman, to forfeit all pay and allowances due to him, not exceeding the pay and allowances for one month.

16. The Chairman or Vice-Chairman may originate, receive, or enquire into a complaint of misconduct or neglect in the performance of duty against any person employed by the Commissioners.

17. Nothing herein contained shall be held to debar the Commissioners from instituting proceedings in any Civil Court having jurisdiction against any person being or having been in their employ, with a view to the recovery of damages for any loss or injury which they may have sustained in consequence of any act done or omitted to be done by such person.

### Notice.

At present it is heard by a reliable and authentic source that the intention of Nawab Zoofukrar Oodowla Bahadoor, Brother, Sultan, Mooktear or General Attorney of Waged Ally Sha, the ex-King of Oude, is directed chiefly towards the management of the affairs of the King of Oude, that with regard to the creditors of the late Moonshee Sufderab Khan Bahadoor, Lalanoos Sultan, (who was of a distracted mind,) it is his desire that every one who might have any account with him should directly report the same with true and correct information.

The said Bahadoor resides at the Dullee Wallee Kotee, No. 30, situated at Garden Reach. It is certain that if the creditors, &c., will be able to prove their debts, he, the Bahadoor, shall make some arrangement respecting them, so the Merchants, Tradesmen, and petty Dealers are required within two weeks from this day to appear before the said Bahadoor with their accounts, vouchers, documents, &c., such as may be in accordance with the recognised usage of the Government, and to show him their respective papers without the mediation of the heirs of the deceased Moonshee, which will be better for them in every respect.

From E. H. LEAHINGTON, Esq., Secretary to the Government of India, Financial Department, to the Secretary to the Government of the North-Western Provinces, (No. 2397, dated Simla, the 20th September 1866.)

I AM directed to acknowledge the receipt of your letter No. 2738A. of the 17th ultimo, enclosing a copy of a communication from the Accountant-General, North-Western Provinces, in which he raises two questions, viz.,—

1st.—"Whether an Officer who obtains privilege leave for one month and returns before its expiration may carry on the balance to a future leave without the permission of Government."

2nd.—"Whether any balance of leave, however small, can be carried on to another year, or whether the portions should be defined, e. g., that the leave should be given in complete weeks."

2. In reply I am directed to state that, whenever an Officer wishes to re-assume his duties within the period for which privilege leave has been granted to him and to cancel the balance, he should report his intention to Government, who will decide as to whether any objections exist to the arrangement.

3. Any balance of leave being allowed to be carried on to another year, it is inexpedient to limit it to particular portions of time.

ORDERED, that the foregoing letter be communicated to the—
